

Datex Studio

Engineered for Easy™

Datex Studio is a powerful low-code application platform designed to provide businesses with the ability to tailor Footprint WMS to meet their unique operational needs. No more time-consuming, costly software development. Take the fastest route to competitive advantage, reduce frustration, and connect and extend your WMS capabilities with Datex Studio.

Transform the user experience. Provide a role-driven user interface that is perfectly tailored to every customer requirement. Easily update it every time a requirement changes, without the need for costly source code changes.

Gain a single source of truth with unified visibility across the entire transaction lifecycle and capture every aspect of your operations.

Make It Your Own

Tailor apps using intuitive visual interface.

Transform the User Experience

Configure the user interface by role.

Easier Integrations

Connect to logistics solutions and EDI.

Overview of Capabilities

Tailor Applications

Modify apps quickly using our intuitive visual interface without having extensive coding experience.

Test & Source Control

Ensure every change is tracked, tested, and reviewed before deployment.

Create Unified Operational Ecosystem Visibility

Build out screens to show data and control functionality in one unified application.

Connect Seamlessly

Use pre-built integrations or APIs and create low-latency integration apps, for both on-premise and cloud.

Optimize Performance

Integrate performance-sensitive code directly into Footprint WMS for maximum efficiency.

Populate Data in a Snap

Draw in data from one system to populate data fields in another application.
