

Datex FootPrint® WMS ePortal

Datex FootPrint® 3PL WMS provides an optional web portal to enable clients of third party logistics providers access to online data on a 24/7/365 basis. Third party logistics clients are able to view orders, shipments, inventory, invoices and attachments and can even run customized reports. Easy to use, the Datex ePortal provides immediate online data access and can be restricted to ensure that 3PL clients view only their company information. By using the ePortal, 3PL clients will be able to access whatever information they find necessary without requesting help resulting in increased client satisfaction without additional labor and operating costs.

Main Features:

Inbound / Outbound Operations:

- ✓ Upload Orders
- ✓ View Orders
- ✓ View Shipments
- ✓ View Containers

Material Inquiry:

- ✓ By Material
- ✓ By Lot

3PL Invoicing:

- ✓ 3PL Invoice Creation
- ✓ 3PL Invoice Payment History Viewing

Reporting:

- ✓ View Reports
- ✓ Create Custom Reports

Warehouse Activities:

- ✓ View Tasks
- ✓ Initiate Owner Transfers

Datex FootPrint® ePortal can be customized for each one of your customers allowing you to decide the type of information that you want your customers to see. As the manager of the system, you will be able to see more extensive information resembling the desktop portion of your WMS.satisfaction without additional labor and operating costs.

Outstanding Features:

- ✓ Runs off Microsoft active server pages
- ✓ Interfaces with Datex FootPrint® suite or your current order management solution
- ✓ Unlimited number of users

Maximizing web based and remote connectivity

The reporting tool allows you to create any type of report in the system and place them in any section of the portal providing your customers with easier access to the information. These reports can then be accessed on a regular basis obtaining the latest information available each time.

View Inventory:

View and upload inbound and outbound orders

Benefits
