Warehouse Management Solutions That are Engineered for Easy

Datex is a warehouse management SaaS firm that serves warehouse operators in tightly controlled third-party logistics, food and beverage, life sciences and industrial industry segments.

Founded in 1978 and based in Florida, today Datex serves over 200 clients across the United States and other global markets.

Datex Makes It Easy.

WMS with 40+ Years of Pressure Testing

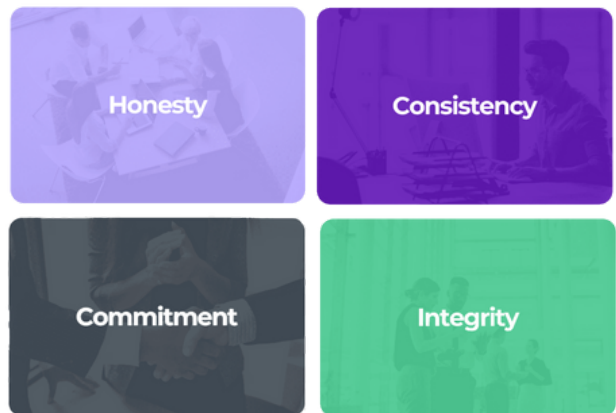

At Datex, we know how tough warehouse management can be. We've lived it for over 45 years. We've experienced the hard work and long hours. We've felt the stress, the complexity, and the pressure to get it right. We've walked countless warehouse floors, solving problems in industries where precision and reliability are non-negotiable.

The Datex platform has been tested in the toughest environments and with stressful challenges including managing compliance, tracking inventory and optimizing labor. Our platform provides the flexibility to shape Footprint WMS to fit your world, empowering you to tailor workflows, integrations and features to support your business-not the other way around.

What Can You Expect from Datex?

-  Products that are easy to work with
-  Experts who are there for you
-  Less pain in the warehouse
-  Advice that makes sense

Who We Are

At Datex, we know how tough warehouse management can be. We've lived it for over 45 years. We've experienced the hard work and the long hours. We've felt the stress, the complexity, the pressure to get it right. That's why we've always made it our mission to make warehouse management as easy as possible.

Our innovative Datex platform has been designed to take the stress out of your day. Datex Studio, our low-code application platform, is easier than ever to tailor your Footprint WMS to the needs of your unique environment with an expert team guiding you to success. Whatever we do, our goal is to make things easier for you. So you can stay focused on the growth ahead.
