## Getting Warehouse Management Down to a Science

At Datex, we know how tough warehouse management can be. We've lived it for over 45 years. We've walked countless warehouse floors solving problems in industries in which precision and reliability are non-negotiable.

We've led the way in warehousing technology. Anticipating challenges, innovating solutions, and with the latest version of our platform, we've taken a big leap forward to deliver the ease and adaptability you've always wanted, in ways you never thought possible. Our mission has always been to make warehouse management as easy as possible so you can stay focused on the growth ahead.

### Easy to use technology

Simplify configuration and onboarding with intuitive low-code tools.

### No more warehouse pain

Get downtime, revenue leakage, obstacles, and emergencies to near zero.

### More efficient operations

Optimize labor and resources to save time, space, and money.

## Overview of Capabilities

### Track & Trace

Track every step of a product's journey in real-time, from production to delivery.

### Data Management

Leverage AIDC technology for real-time visibility and accurate, efficient orders.

### Labor Optimization

Simplify operations with tailored workflows and quick associate onboarding.

### Cartonization

Optimize fitting, packaging, and shipping at low costs using automated analytics.

### Quality Control

Minimize damage impact with accurate, automated tracking and documentation.

### Inventory Management

Track inventory accurately using centralized data and automated processes.
